

CF2 (CrewFactoryFlow)

Idea Into Real Monetization Engine, Not Just Scraping For Old Model
Sales Call/Mail.

CORE PRINCIPLE

Leads are not output — leads are a reusable asset powering content + revenue

FULL CF2 LEAD SYSTEM (NO CODE)

```
FlowController
  ↓
Unit-Scout (optional)
  ↓
Unit-LeadData
  ↓
Unit-LeadIntelligence
  ↓
Unit-Content
  ↓
Unit-LeadGen
  ↓
Unit-Publisher
  ↓
Unit-Advertise
  ↓
Unit-Feedback (learning loop)
```

1. Unit-Scout (OPTIONAL but powerful)

Goal:

Find **what to scrape**

Output:

topics / niches / locations

ex:

- Real Estate Dubai
- AI Companies USA
- Restaurants Dhaka

👉 This replaces hardcoded keywords

◆ 2. Unit-LeadData (FOUNDATION)

Goal:

Collect + clean + structure leads

◆ Sub-Units

```
subUnitLeadSourceAPI
subUnitLeadSourceScrape
subUnitLeadSourceDirectory
subUnitLeadNormalize
subUnitLeadDeduplicate
subUnitLeadStore
```

◆ Output Structure

output/{topic}/leads/

```
leads_raw.csv
leads_clean.csv
```

◆ Schema (standard)

```
name
phone
email
website
address
location
category
source
```

◆ 3. Unit-LeadIntelligence (🔥 SECRET WEAPON)

Goal:

Turn raw leads → usable intelligence

◆ Sub-Units

subUnitLeadEnrich
subUnitLeadScore
subUnitLeadSegment
subUnitLeadInsight

◆ What happens here:

Enrichment

- business type
- estimated size
- online presence

Scoring

+20 has phone
+20 has website
+30 premium location
+30 active business

Segmentation

Hot Leads
Warm Leads
Cold Leads

◆ Output

leads_enriched.csv
leads_scored.csv
leads_segments.csv
insights.md

◆ 4. Unit-Content (🔥 UNIQUE ADVANTAGE)

Goal:

Convert leads → content

◆ Sub-Units

subUnitContentIdeas
subUnitContentScript
subUnitVideoProduction

Content Types (from SAME data)

1. Data Videos

- “Top 10 Real Estate Companies in Karama”

2. Debate Videos

- “Are Real Estate Agents Overcharging?”

3. Lead-Based Shorts

- “Best 3 Agencies Near ”

4. Educational

- “How to choose a real estate company”
-

◆ Output

videos/
shorts/
scripts/

◆ 5. Unit-LeadGen (MONEY ENGINE)

Goal:

Turn viewers → leads

◆ Sub-Units

subUnitLeadMagnet
subUnitLandingCopy
subUnitCTA
subUnitEmailSequence

◆ Example Flow

Lead Magnet:

- “Top 100 Real Estate Companies List (Free)”

CTA:

“Download full list — link in description”

◆ Output

leadgen/

landing.txt
cta.txt
email_sequence.txt

◆ 6. Unit-Publisher

Goal:

Distribute BOTH content + data

◆ Sub-Units

subUnitYtUpload
subUnitSocialUpload
subUnitGoogleSheets
subUnitCRMUpload
subUnitCloudSync

◆ Output

publisher/

tube/
sheets/
crm/
cloud/

◆ 7. Unit-Advertise

Goal:

Amplify reach

◆ Sub-Units

subUnitShorts
subUnitClips
subUnitSocialPosts

◆ 8. Unit-Feedback (🔥 LEARNING LOOP)

Goal:

Improve system automatically

◆ Tracks:

- which niche works
 - which leads convert
 - which videos perform
-

◆ Output

feedback/

```
performance.json
best_topics.json
```

↻ FULL LOOP (VERY IMPORTANT)

Leads → Content → Audience → New Leads → Better Targeting

👉 This is r growth engine

□ DATA STRUCTURE (MASTER)

output/{topic}/

```
leads/
intelligence/
content/
leadgen/
publisher/
advertise/
feedback/
meta.json
```

R UNIQUE ADVANTAGE

Most people:

scrape → sell

:

scrape → analyze → create content → attract → capture → sell

👉 This is 10x stronger

STRATEGY EXAMPLES (FOR)

1. AI Niche (Perfect for PlayOwnAi)

- scrape AI companies
 - create:
 - “Top AI Startups”
 - CTA:
 - “Get full list”
-

2. Local Business LeadGen

- scrape Dhaka businesses
 - create:
 - “Top Restaurants in Dhaka”
 - CTA:
 - “Get full contact list”
-

3. B2B Agency Model

- scrape niche leads
 - sell:
 - outreach service
 - marketing service
-

⚡ FINAL TRUTH (IMPORTANT)

If ONLY scrape → ✖ low value If add content → ⚡ growth If add leadgen → 💰 money

🚀 If want next level

I can design next:

👉 exact lead scoring formula 👉 content templates auto from CSV 👉 Tube → Lead funnel optimization 👉 niche selection strategy (high profit)
